Day 3: Intuition in Business
with Chris-Anne & Becca Berggren

Soulpreneur
INTUITION LAB

Today you'll be using our intuition to help you to define and attract your dream client.

You can use your intuition for any business challenge or decision. Today, we are going to use it to dig into dream target clients. You will practice hearing answers from the **unconscious** mind and use a type of automatic writing to quickly answer writing prompts. During the following exercise, know that whatever answers come to mind are the right answers for you today. (Even if the answers don't seem to make perfect sense at first, simply allow your answers to flow and keep writing whatever answer comes to mind.)
